Dear Lee:

RE: Deadline for Response to 1998 Air Quality Inspection

Due to the fact I will be out of the office for most of the next few weeks, Solvay Minerals, Inc. hereby requests an extension for the 1998 Air Quality Inspection Response. We will be able to respond to issues raised in the Inspection Report by July 10, 1998.

I appreciate your understanding in this matter.

Sincerely,

Dolly A. Potter
Environmental Engineer
